SMART solutions for business

Innovations for today's workplace

Transforming How You Do Business

SMART displays and software help teams collaborate – in any work environment.

The way we work is changing, and your technology needs to keep pace. SMART solutions enable more productive and effective collaboration leading to faster results – moving your business forward.

We make technology seamless

SMART solutions create dynamic workspaces that unlock everyone on your team, so they can all contribute from any location or device.

FLEXIBLE

Plug and play.

Choose the display, conferencing platform and peripherals that work for your environment and needs.

CONVENIENT

Any file type.

Write over any file type and save notes in popular file formats to continue where you left off.

COLLABORATIVE

Anywhere, anytime.

Anyone can follow along and contribute from anywhere in the world and from any device.

Do more in
your workspaces

Today's workflows are about going beyond communicating to collaborating. SMART has spent 30 years designing interactive displays and software to provide unparalleled collaborative experiences.

Whether your technology needs are for boardroom presentations, remote training or open brainstorming – SMART has you covered.

Choose your SMART Board Pro series display	Choose your conferencing platform	Choose your meeting peripherals

What do you want to do?
- Agile/Scrum/Lean Project Management
- Corporate Training
- Design Review
- Ideation and Innovation
- Command and Control
- Presentations and Conferencing

Where do you want to do it?
- Huddle Space
- Training Room
- Conference Room
- Meeting Room
- Personal Office
- Open/Public Space

80%
of workspaces have collaboration technology

Open spaces 36% ⬆

Huddle spaces 34% ⬆

UNPARALLELED COLLABORATIVE EXPERIENCE

SMART solutions enable faster breakthroughs, more informed decision-making and enhanced productivity – mitigating the risks that come with miscommunication.

Available with Windows 10 Pro on an Intel®–powered OPS PC

SMART OPS PC:
The power of Windows® 10 Pro in your display

Access Microsoft® Office files and all your applications on a full Windows 10 Pro computer right at the display for true walk up and use simplicity. The OPS PC allows for a simple, standardized deployment in organizations, and provides ease of mobility and flexible use for your display.

SMART Board® Pro series

Ready to use when you walk into the room. No training needed: just pick up a pen and write. With iQ embedded computing, SMART interactive displays are the digital hub of your workspaces.

SMART Board 6000S Pro series with iQ

With the addition of an integrated microphone array, Android 9 operating system, two 65W full-featured USB-C ports, NFC login and up to 40 points of touch, the 6000S Pro series is even simpler to deploy, use & support, and designed to protect your data.

SMART Podium™ 624

Empower business professionals, trainers, first responders and military personnel to communicate more easily and effectively, in the workplace, in the field, or from home. The SMART Podium with battery–free pen works with Windows or Mac OS computers to provide touch, gestures and digital ink while video conferencing, or while projecting an image to a projector or display.

SMART Board MX Pro series with iQ

The user and budget friendly solution to boosting team productivity. The SMART Board MX Pro series has all the interactive tools teams need to collaborate at a great value.

SMART Board GX series

Bring interactivity to your organization, affordably. The SMART Board GX series helps your workplace become more connected and meetings more engaging. Simpler to deploy, use and support, the SMART Board GX series is the affordable alternative to non-touch displays and projectors and a solid investment for your corporate budget.

iQ makes everything one click away

SMART Board displays with iQ put everything you need in one place. The embedded computer offers one click access to SMART software applications and collaboration tools including a whiteboard, web browser, and wireless screen sharing. Share screens natively from any Android™ (Google Cast) and iOS® (AirPlay) device, through a browser or an app with touch-back support for Windows and Mac without prior network configuration with SMART mirror.

iQ is an integrated Android-based experience; a platform purpose-designed to be easy to use for users, regardless of technology comfort level. iQ gives users an easier, more powerful and more accessible way to engage and collaborate in a remote, in-person or hybrid office environment

Privacy & Security with iQ

Privacy and security are at the core of iQ's design. This means whether in room, on mobile devices or at a distance, iQ's built-in features enable fully interactive and collaborative workflows, while keeping user data private and secure.

With automatic OTA updates to ensure SMART displays security settings are always up to date, the ability to support certificates for authenticating and accessing networks and the capacity to remotely 'clean up' content, SMART displays with iQ are designed with the security you need already built in.

Collaboration Software

Designed to leverage the power of SMART interactive displays, our software options connect teams and enable them to share and interact with content in ways you won't believe until you experience it.

SMART TeamWorks

Welcome to the modern conference space.

Experience an end-to-end meeting solution that is designed for fast, flexible, and limitless connectivity, collaboration, and engagement. Share screens, access personal cloud storage and calendars, open a collaborative whiteboard, and launch meetings faster with one touch, all from the home screen with SMART TeamWorks 4.

SMART Meeting Pro *

Unbound workspaces

SMART Meeting Pro® visual collaboration software allows colleagues to create and capture ideas in the virtually unlimited interactive workspace. The workspace expands as you add images, files, links and notes – even over multiple displays and meetings – enhancing collaboration.

*Included with all SMART Board® Pro series displays

SMART Ink® lets teams markup anything, anywhere, without an overlay layer, which means you can continue to navigate and interact with content while writing, without interruption. Plus, convert digital writing to text to insert into files or text fields. SMART Ink works with PDFs and Microsoft office files, and works fluently with Windows Ink.

With up to 40* **simultaneous points of touch** on iQ Android, and on Windows® and Mac® computers, **Simultaneous Tool Differentiation** lets multiple users write, erase, move and gesture at the same time without toolbars or menu selection.

*See comparison chart for more details.

Object Awareness™ detects touch, pens and palms automatically. Enjoy this consistent, leading touch and ink experience across platforms, taking the guess work out of using your technology.

Exclusive to 6000S Pro, **Pen ID™** lets multiple team members write with different colored ink at the same time.

MORE SMART SOLUTIONS

SMART Document Camera

4K Ultra HD, UVC compliant

Capture content in high quality, even while video conferencing. The flexible, easy-to-adjust lens swivels to convert to a webcam in seconds, making this the ideal choice for working meetings with remote participants, or getting a closer look at projects in the field.

SMART Electric Height-Adjustable Stands

Create easy-to-install collaborative spaces, anywhere

SMART's mobile stand with integrated power bar turns any space into a meeting space with only one cord to plug into the wall. SMART's wall stand helps save in expensive wall reinforcement, and provides height adjustment for up to 86" interactive displays, flexibly enabling hands-on collaboration and presentations to large audiences.

Fully UL certified and ADA compliant.

TRAINING AND SUPPORT SERVICES

Partnering with SMART means we don't leave you to figure out how to use your collaboration solution – we help you achieve your goals. SMART provides training and has several installation and support services options to fit your needs and budget.

Training

Access our online training courses and self-serve, how-to videos on our hardware and software solutions anytime, anywhere, so you can get the most out of your collaboration technology – from day 1 onward.

Support

SMART global support has the experience, knowledge and resources to ensure consistent, fast and effective support. Make your SMART experience simply seamless with a host of warranty options, training resources and technical support.

Discover SMART Business solutions for more productive, connected work everywhere.
