The Cisco® Headset 730 is a premium Bluetooth headset built for business, personal, and the journey between. These headsets are designed for mobile or office workers, enabling productivity in any environment with superior audio, adaptive noise cancellation, enterprise-grade security, and a sleek microphone design. Deep integrations with Cisco collaboration applications and devices allow for intuitive user experiences and intelligent IT headset management.

Product overview

Our work environments and styles continue to evolve. We work in open environments that allow us to interact freely but rely heavily on computers and smartphones. Whether working at a desk, interacting with a team, or on the go, everyone must remain intently focused on work. That’s why Cisco extended the seamless collaboration experience with the premium Bluetooth Cisco Headset 730, built for business, personal, and the journey between. Its professional design features Clear Voice technology, which delivers a superior audio experience in the office or on the go. This voice-honing, boom-less design easily transitions from business to personal use, enabling the user to stay connected in any environment.

The experience Cisco headsets provide when coupled with the Cisco collaboration platform is leading in the industry. Through deep integrations, we enable intuitive user experiences and intelligent headset management. Our headset management platform gives administrators a single pane of glass to manage both the call control and devices at no additional cost. Advanced analytics and management features such as inventory management, remote configuration, and diagnostics allow an administrator to manage headsets and deploy them with minimal effort.

Features and benefits

Table 1. Features and benefits

Feature	Benefit
Clear Voice technology	Voice-honing, boom-less technology coupled with adaptive noise cancellation, background noise reduction, and side tone enabling, crystal clear audio. Anytime.
Bluetooth (5.0)	Connect on the go to any device that supports Bluetooth. Simultaneously connect 2 Bluetooth devices plus 1 USB.
Active Noise Cancellation	Switch between Noise Cancellation (NC) to focus in any environment or Ambient (AMB) to easily collaborate with others.
Smart sensors	Automatically play/pause music, answer calls, or mute your microphone with contextual movements.
Mute notification	Talking on mute? Receive a notification so you aren’t talking to a muted mic during a call.
On-ear buttons	Easy call and music controls.
Integrated Presence LED Light	Automatic call presence or manual “Do Not Disturb” LED light.
Cisco Headsets mobile app	Configure and customize your headset for an exceptional experience. Easily adjust equalizer settings, configure features, and discover all that your headset offers.
Enterprise-grade security	Industry-first hardware and software protection to help communications stay secure.

Feature	Benefit
Intelligent, integrated headset management	Manage all Cisco endpoints, apps, and headsets from a single platform. No additional software or service fees are required. Enjoy simple IT headset management to deploy, monitor, and troubleshoot issues.
Two Headset Finishes	Available in platinum or carbon black finish.

Platform support

Note: Table 2 lists support for basic headset functionality. Advanced capabilities may be available in the latest version of software. Legacy Cisco phones, third-party apps, and third-party devices may work with the Cisco Headset 730, but they have not been tested and are not supported.
