

# Loews Hotel—Kansas City

## Situation

The Loews Hotel, in Kansas City, Missouri, embodies the vibes and energy of the downtown area. Whether people are visiting for conventions, business meetings, or weekend getaways, it's important to the hotel brand to provide technology that matches the energy of the city.

## Solution

SKC Communications (now AVI-SPL), along with JEDunn Construction, provided the hardware, installation, and programming for all aspects of the Loews Hotel Kansas City. The project included integration of state-of-the-art audio and control systems in key visitor areas, including the ballroom, restaurant, and lawn space for outdoor events.

## Results

Technology integration includes presentation systems in the hotel's meeting spaces, boardrooms, and suites. Display and audio systems are incorporated in various public spaces, restaurants, and event spaces. This technology helps make the Loews Hotel a warm, welcoming, and innovative place to visit.

## Technologies Used

- AMX Control
- Biamp Audio
- JBL Speakers
- NEC Displays
- Samsung

## About AVI-SPL

AVI-SPL is a digital enablement solutions provider who works with organizations globally to improve team collaboration and unlock new business value. We are the largest provider of collaboration technology solutions, which includes our award-winning managed services.
